# Corrugated hose

PFEIFFER 

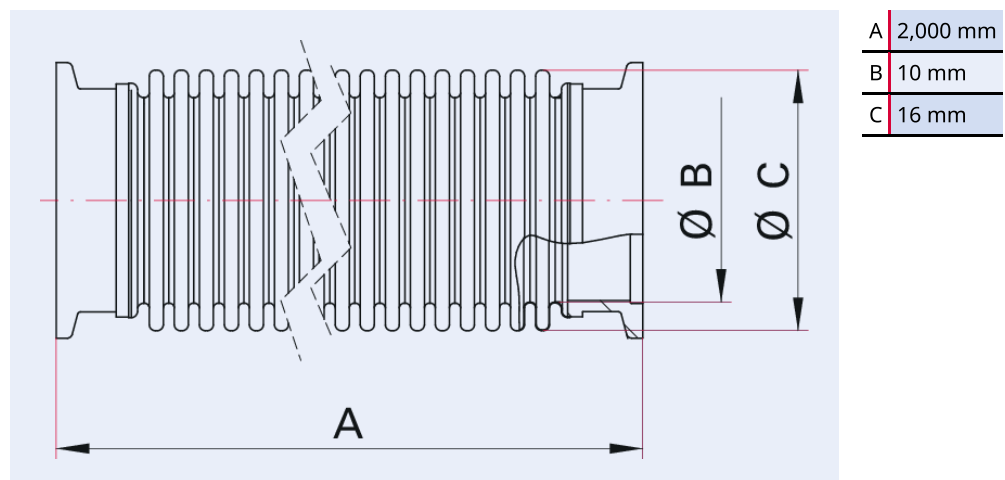

Illustration only

**Corrugated hose, flexible, stainless steel, DN 10 ISO-KF, length 2000 mm**

- Flange connection length 15 mm
- Custom lengths on request

## Dimensions

| Technical Data                    | Corrugated hose, flexible, stainless steel,<br>DN 10 ISO-KF, length 2000 mm |
|-----------------------------------|-----------------------------------------------------------------------------|
| Materials in contact with media   | Bellows: 316L  <br>Flange: Stainless steel 1.4301/304                       |
| Temperature range                 | 196 – 300 °C                                                                |
| Bending radius, frequent movement | 100 mm   3.94 inch                                                          |
| Bending radius, one-time movement | 17 mm   0.67 inch                                                           |
| Connection flange                 | DN 10 ISO-KF                                                                |
| Pressure range                    | $1 \cdot 10^{-8}$ hPa – $5 \cdot 10^2$ hPa over pressure                    |
| Material                          | Flange: stainless steel 1.4301/304; bellows:<br>stainless steel 316L        |
| Temperature range max.            | 300 °C   572 °F   573.15 K                                                  |
| Temperature range min.            | 196 °C   320.8 °F   77.15 K                                                 |

| Order number                                                                | Corrugated hose, flexible, stainless steel,<br>DN 10 ISO-KF, length 2000 mm |
|-----------------------------------------------------------------------------|-----------------------------------------------------------------------------|
| Corrugated hose, flexible, stainless steel,<br>DN 10 ISO-KF, length 2000 mm | 120SWN010-2000                                                              |
