XYZ-Axis precision manipulator, 150 mm stroke, stainless steel, DN 40 CF

- Compact design for precise 3-axis manipulation
- Z-axis: Recirculating ball bearing guides and recirculating ball screw drive
- XY-axis: precision cross roller guides
- Zero backlash and no slip-stick effect
- Guide and drive are wear-free and maintenance-free
- Extremely stable design concept minimizes position offset due to pressure changes
- XY-axis micrometer screws with big knobs - easy to handle and easy to read
- Brake for z-axis prevents independent movement
- Connection flange with through holes, traversable flange with threaded holes
